

"As they look, feel, manipulate and listen, children discover that the world of nature is exciting and filled with endless opportunities for exploring and discovering. Place young children in natural environments and watch the wonder unfold."

ST. THOMAS' NURSERY SCHOOL STEAM SUMMER CAMP

For children in K - 1st grade
First come first serve, 15 students max

www.stns.us

FULL STEAM AHEAD

JUNE 19 - JULY 15

Camp includes outside time in our nature playground on our 43 acre campus with lots of water play (weather permitting).

Our camp is unique because we have a designated STEAM room for your children to tinker with materials to explore, wonder and create.

Please bring a change of clothes, towel, bathing suit and lunch.

Children tinker as they take things apart, put things together, figure out how things work and attempt to build and make creations. When they are faced with a problem, children ask questions, make plans, work together, test their ideas and solve problems.

In our STEAM room we use science, technology, engineering, art, and math to inspire the next generation of inventors and innovators.

Each week we will read books related to our weekly theme and will help solve a problem for one of the characters. We will test out our ideas and come up with a solution.

\$200

PER WEEK (EXCEPT FOR 4TH OF JULY WEEK)
